(Special Correspondent for the I. N. S.)

Nashville. Aug. 14.—The house of representatives of the Tennessee general asembly now is all that remains between the federal suffrage amendment and victory, the senate Friday having passed a resolution ratifying the Nineteenth amendment. The house has as yet taken no action on it. Its own resolution is still in committee, which decided not to report back before Monday night and the house is adjourned until 10 a. m. Monday.

Suffrage leaders confidently expect to pass the amendment in the house Tuesday. The senate measure, already engrossed, will be presented to the house Monday morning. Under the rules it will have to lay over a day, unless unanimous consent can be obtained for immediate consideration. That is believed impossible.

When it comes up in regular order Tuesday a motion will immediately be made to pass the senate resolution. No effort at all will be made to bring the house resolution out from committee, as the committee control is in the anti-suffragists' hands. Several hours' debate are expected Tuesday

debate by Senator Candler, the only republican senator to vote against ratification. Candler charged that Mrs. Catt had advocated intermarriage of the white and colored races. Her denial was: "It is an absolute fabrification that I have at any time advovated intermarriage between the white and negro races. Futhermore, I believe it to be an absolute crime."

Candler's remarks weer hissed again and again by the galleries.

EARLY REPLY TO **AMERICAN NOTE**

Expected Soon at Washing ton From Great Britain and Italy.

COMMON POLICY DESIRED

Between France and England.

England.

Washington, Aug. 14.—Replies from both Great, Britain and Italy to the American note on the Russian-Polish situation are expected soon by state department officials. A summary of the French rejoinder was received here to-day and the full text will follow soon. In the opinion of administration officials, as expressed today, the answer of the allies will spring from a desire to reach a common policy on a question regarded as the gravest with which the world has to deal.

It also was suggested officially that the replies of Great Britain and France would offer an opportunity for those governments to smooth out whatever differences have developed between them since the dispatch of the American note and the recognition by France of Gen. Wrangel as the head of the South Russian government.

The French reply as outlined in the official summary received today was understood to be highly satisfactory to administration officers. It was said that France, in recognizing Gen. Wrangel, had accepted the principal contention of the United States that Russia should not be dismembered.

Detailed information concerning the policy of Gen. Wrangel, officials stated, was not as "full and copious" as desired, although that received was described as of a favorable character. It was disclosed today that the American note on the Russian-Polish situation was directed to the widespread "loose thinking" it was said, had given rise to a grave feeling of letharry toward the menace of soviet principles.

In this connection attention was called to the appeal from the executive committee of the third internationale at Moscow to the I. W. W. In the United States, which was found in communist literature seized from the soviet courier, Nelis Jacobsen, at New York on July 35. It was stated in this pamphiet that unless the workers of other countries rose against their own capitalists the Russian revolution could not last. To recognize a government espousing such principles, officials declared, would be openly to invite destruction.

Until its receipt, the impression prevailed that Judge McCall had not acted upon the recent request of the receivers for the street railway company asking that the order of the state public utilities commission for a 7-cent fare, rendered more than three months ago, be put into effect owing to the deficit in finances during the three norths period of the present 6-cent fare, While the decision of Judge McCall states that the increase in fare shall become effective "not later than Aug. 15." Receiver Tutwiler stated Thursday in answer to questions that no effort would be made by the street car company to put the order into effect before that date, which is Sunday.

AGAINST RUSSIA

THREE CENTS.

Ambassador Francis Says the Russian People Will Solve Own Problems.

OUTLOOK IS VERY BRIGHT

Says Not More Than 10 Per Cent. of Russians Are Bolsheviks.

Washington, Aug. 14.—There will be o world war against soviet Russia. rance, England, Italy and the United tates will not take up arms again the Russians unless forced to do so in self-defense, and they will not be forced. Instead, the Russian people themselves will solve their own prob-

months, by the overthrow of the noisheviki.

This prediction was made by Ambassador to Russia David R. Fancis in an interview given the International News Service today, following a long conference with Secretary to the President Tumulty at the White House and Secretary of State Bainbridge Colby. Ambassador Francis left Russia in March, 1918, but technically he is still accredited to that post.

"Not more than 10 per cent. of the people of Russia are bolanevists at heart," the ambassador stated. "This being the case, bolshevik rule over Russia cannot last long. The American note on the Polish situation will help a lot. It will find its way into Russia, you may rest assured, through Gen. Baron Wrangel, in control of the southern part of the country around the Crimea, through Russians in other parts of Europe and in other ways.

"I do not foresse a general war between the aliles and the bolsheviki."

Diplomatists here are apparently of the same opinion as Ambassador Francis.

A number of reasons are cited here

soviet government as "a decisive lactor."

Anatole France, writing in the socialist newspaper Humanite, does not share the opinion apparently held in some quarters that the United States will assist France in giving military aid to Gen. Wrangel's antibolshavik army.

"France stands alone in a terrible situation." says M. France. "With a feeble voice the French masses say." Save the peace of the world."

James M. Reck, a former official of the United States government, was quoted by the Matin as safing:

"The United States hates bolshevism. We maintain the sight to crush by force of arms all sedition and stifle all contempt for law when it is for the good of a republican people."

GAMBLING HOUSES CLOSED

New Orleans, Aug. 14.—For the first time since the village days of New Orleans gambling houses were closed at 12-ol o'clock this morning.

Earlier in the night police visited each of the gambling places and served notice that the Higgins act passed at the special season of the legislature, which prohibits professional card gambling, would become effective at that hour. Canal street at midnight suddenly hecame alive with habitues of the several hundred places affected. Royal, notorious gambling street for more than a century, was dark except for the lights from one or two all-night restaurants, and Iberville street, long the hunt of the gambling clubs, went completely dark.

The Higgins act makes it illegal to gamble at any game with cards where stakes result to the benefit of anyone other than the players. This eliminates the "take out." the main source of revenue for the gambling clubs. The clubs closed were known as "chartered clubs." The notice did not go to the legislimate clubs where the "take out." is not permitted.
